

Digital footprint evidence showing State Assemblyman David DiPietro and State Senator George Borrello texting each other hedging bets on whether they think Judge Vilardo and Judge Sinatra's family members will follow through on murdering each other as they both try to cover up Judge Arcara's family's drugs and sex trafficking business. David and George are also documented as texting each other about the upcoming Andrew Jackson-style duel that's going to apparently take place between Judge Vilardo and Judge Sinatra as neither of them can currently agree on which of them is going to swear Carl Paladino into office as U.S. Ambassador to Brazil when Trump, thank fucking God, comes back. Photographic proof of Luke Wenke being one of George Borrello's third tier top donors right in John Sinatra's courtroom, as neither David or George can legally deny at this point trying to help Luke Wenke get marijuana into the Chicago Metropolitan Correction Center before Officer Fernandez found the marijuana in another inmate's cell. This did legitimately happen recently. Call Officer Fernandez.

Real Shit

John Sinatra's courtroom is refusing to convict Katie [REDACTED] over what she did to Luke Wenke's 2019 Ford Fusion hybrid early 2022. Katie somehow forged my signature to get Wells Fargo to give her my paperwork, and then she took the car to Professional Recovery near Buffalo and got my car rep'd. Ron the Investigator of the U.S. District Attorney's Office gave a key to Luke Wenke's car to Katie [REDACTED] early 2022, and now Katie's boyfriend [REDACTED] (Buffalo Federal Probation employee) is refusing to do something concerning the police report documented break in into Luke Wenke's house at [REDACTED] in Olean. Grand theft auto + forgery = Katie [REDACTED]

Ron the Investigator of the U.S. District Attorney's Office is afraid of being investigated by the Trump administration for his connections to the Buffalo FBI's illegal activities, so Ron is threatening Frank Passafiume in an attempt to get Frank to back down on his deal with John Sinatra's court to end Luke Wenke's case on time served no more supervised release. This deal has been in the works since Jan. 2024.

Luke Wenke is allegedly afraid of being murdered in custody when he arrives back in NY State

Since he is refusing to cough up the blueprints on how to completely replace interstate threats and cyberstalking situations across state lines without a conviction and year after year of psychiatric interrogation, Luke Wenke is making claims he needs patent paperwork and Alfred University and Siemens Dresser Rand to replace the handling of circumstances such as his, but John Sinatra's drugs and sex trafficking family members are in need of new work so John Sinatra won't let Luke Wenke have the patent paperwork.

Western New York man hater Katie [REDACTED] (used her exhusband of 12 years ago's last name) of [REDACTED] is now being accused of using her connections she used to get Luke Wenke's FBI Discovery to maliciously impersonate men on the internet such as Richard Greer and make false claims that he is swiping his credit card and paying families in former American territories like the Philippines to make their kids do things on camera. Katie sits at home all day on her laptop doing things like this against innocent recently divorced men like Richard Greer who would be better off married to a midget.

Carl Paladino's friend [REDACTED] of [REDACTED] was 56 with a 15 year old named [REDACTED] and in 2015 Carl gave [REDACTED] a lot of money to help with his legal issues that came out of the matter. [REDACTED] was Judge Giardini of Carrollton NY's first cousin. Judge Giardini died in 2020 a Cuomo nursing home victim.

Looks like the Capitol Riots are getting out. Time for everyone to stop forging Luke Wenke's handwriting and get him out.

- Handwriting claimed to be Luke Wenke's

(Katie [REDACTED] is known to smudge copies of Luke Wenke's fingerprints all over her thighs and claim that Trump raped her)
