**CAUTION - EXTERNAL:**

First of all I'm happy myself and Bill Aiello know how to have normal human conversation and he very positively responded to me after I told him I voted for him today by affidavit.

I am preparing to make myself more indestructible than ever before so I will be ready to be back on Facebook and X. I have so many things to do, more than I did as Cattaraugus County Libertarian Chairman. I will eventually pay for The Old Library Inn so I can brief the general public on the many different discussions I've had with federal officers these last few years which never made it on the absolutely useless psychiatric paperwork Katie has on her HIPPA rights violating website. I can combine theatre techniques with public interest sociology.

Psychics at Lilydale NY, 10th generation aura reader Michael Crick of the Salamanca Planning Board, and Elexya [REDACTED] of Job 38:31 are just the beginning of the many different things I know about I had to brief federal officers on these last few years. I will also figure out a federal halfway house construction event as there is a shortage of those and as I see that as another way to financially complement specifically but not limited to my mother's financial needs. The events I did before Covid are nothing compared to what I feel the need to do next since I am alive and I prefer to exist usefully. I see Donald Trump having issues getting his felony cleared. Eventually once more is figured out I would book The Old Library Inn of Olean and I will make a Homeland Security Long Distance Order of Protection program exist so nobody ever again gets picked up for what I did just for 45 months later to return home to debt in collections, a house destroyed by currently unknown human hands, and a completely humiliating personal life due to being held for no real reason in the end due to knowing someone over 5 years ago for 2 weeks face to face in Minneapolis and in Virginia who not once ever bothered to make contact with me directly since September 2020.

I am looking forward to turning my Olean house into the for profit \$1 million+ per year Cattaraugus County Libertarian Party Museum. First I need to get the fingerprints from Officer Blovsky of the Olean Police on all of the destroyed furniture in my house, and then the bank and the neighbors have already agreed to helping me do what I will do with my house.

I'm so happy I bought my house on my own rather than as a married sensation with Katie so she could just ruin me in the end like she did to [REDACTED] and every other guy she knew.

I will eventually be back on Facebook and X. I advertised for piano tuning customers online before Covid, I would invite people to community theatre shows I was directing, Mt. Herman Pole Dojo never did less than break even thanks to me being on the internet. Telling me specifically to stay off the internet forever so somebody 1000+ miles away I never even met won't feel traumatized by my use of free speech is just anti-American and a great reason for us to advocate for the legalization of the burning of the American flag on Constitutional grounds of airing our grievances if it ever happens to me, or anyone, ever again.

Big problems take big solutions. After the Civil War of the 1860s came railroads. What's after Covid era crime?

Katie's website will eventually get old. She isn't even selling merchandise. She's way too

used to living off her parents who both get money from NY state. The longer the government shutdown goes on, the quicker we find out who in the government is paying Katie to run that website.
