

1

Hello again,

I invite whoever it may concern to please take the \$405 from my commissary account here at Monroe County Jail to pay for the Pro Se lawsuit civil case # 26-cv-00181. Regardless of what I suspect is being talked about concerning my mother's state of financial well being, she is already coming out of this story much better off than she was before. This will be a good summer for her.

I have not heard anything about any updates concerning this lawsuit. It has been a month since I was. We are working on appealing the detention hearing still, as a magistrate from Syracuse who is afraid of having defendants in his courtroom so he gladly has court hearings without them present doing all kinds of suspicious judicial mischief, as the case was with my end of things January 30<sup>th</sup>. It is also worth informing you that US District Judge John Leonard Sinatra Jr. sent me confidential legal mail here to Monroe County Jail recently and Victoria W. Bahl has the evidence at the Rochester Federal Public Defender's Office. We are actively asking if it is possible Katie [REDACTED] (defendant in civil case # 26-cv-00181) personally delivered it here to Monroe County Jail, since everybody involved in my circumstances is aware that she had immediate access to John Sinatra's emails. I was informed that Marianne Mariano is actively researching if Katie does work like this for the Sinatra courtroom on a frequent basis such as sending out confidential legal mail in his name with his signed resignation papers, as well as confidential legal mail containing US Appeals Judge Debra Ann Livingston's signature confirming Katie's hearing at the Senate Judiciary Committee where she is allegedly to be interviewed to replace the

2

Sinatra courtroom entirely with herself, and those of her choosing.

If this were to happen, does Katie plan on upholding cyberstalking convictions against me forever thanks to hacked electronic devices and 10 year olds operating fake emails and social media profiles claiming to be me? I don't know what else she truly discussed behind the scenes over email with the Sinatra courtroom.

I don't know how much Katie and Andrew Clark of the Buffalo FBI have been collaborating with each other since this lawsuit materialized against them. Kind of an unfair playing field at the moment on my end of things. I was hoping to appear in your magistrate of choosing in Buffalo's courtroom after a successful Rochester appeal of the detention hearing, but for some reason the appeal's date keeps getting dragged out further and further as things continue to take place such as the prosecutor Sr. Eldridge allowing Katie to listen to my Monroe County phone calls (while having this lawsuit against her, mind you - conflict of interest/obstruction of justice). So while I wonder if Andrew and Katie are collaborating even more against me, I am considering how effective a Constitutional lawsuit would be against the Buffalo FBI entirely, concerning Cruel and Unusual Punishment ethics violations over how they pointed guns at me in the Salamanca Family Dollar parking lot December 2025 over a nonviolent Speech "crime" committed with no witnesses present. I see no difference between the Buffalo FBI and what news articles describe about ICE.

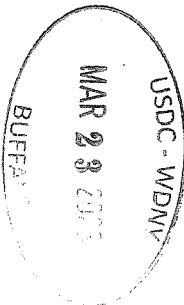

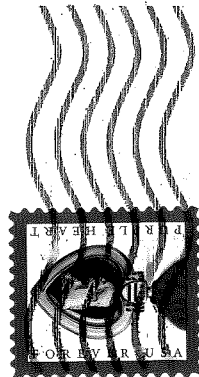

Thank you for your continued involvement - Judge Giardinii's oldest grandson Luke Wenke
