I have never looked like I've gained weight again, and I would really like things to start fixing the way I see fit.

I really hope that your court can help. It would be the first time a court ^{has} did something for me.

Hello again,

Civil case # 26-cv-00181 involves my FBI Discovery as the primary concern. Because while I sit here with a wasted and ruined early 30s to no fault of my own, there are other people out there openly speaking on the internet about me and quite frankly they are cyberstalking me. Clean War Zone was once my Facebook group, this is where they mainly do it. It is not easy to get other people arrested while sitting in incarceration (keep in mind that my house was violently attacked by people on my don't contact list while John Sinatra knew about it and he did this to me December 2025 to silence me) but if I could get these people arrested for cyberstalking I would. Fair is fair and since my early 30s were wasted against my will to no fault of my own, I believe that everyone on the internet should be arrested for cyberstalking me in my old Clean War Zone Facebook group unless this law sees a MAJOR change.

This brings up a new question we have to ask in this Pro Se lawsuit. What if I get the wrong person arrested? What if it's actually Katie [redacted] making fake Chris [redacted] profiles? Those two know each other and they are cyberstalking my case and me in general.

Fake profiles and fake emails operated by someone other than who they claim to be. This is why NY Troopers don't pick people up over this infraction. A lower court lawyer took his cyberstalking conviction to the NY Supreme Court in 2022, and the NY Supreme Court couldn't do anything because it's a federal infraction.

So I am worried about Katie [redacted] continuing to do things like this

2

I would prefer to miraculously find a way to get Barry Covert's law firm paid so all of my lawsuits can be professionally addressed, but if all of my lawsuits have to be Pro Se I would be thankful for this particular court's help. I cannot stand what happened to me and I will not accept defeat.

to me on the internet when I least suspect it. She was using fake burner numbers after I was released from Chautauque County Jail August 2023. A courtroom ruling on hacked electronic devices and false social media profiles would do as much wonder for me as the recent court decision that Louis Mangioni's cyberstalking is not a crime of violence. Hacking my phone and making fake emails and social media profiles imitating me probably explains all of these things in my FBI Discovery that aren't even me. So it goes beyond Andrew and Katie getting it on with each other to manipulate my FBI Discovery.

Will I ever be able to use the internet freely again? How will I be able to openly speak out on the internet about the abuse I suffered at the Salamanca Family Dollar parking lot where officers pointed guns at me over a nonviolent speech "crime" committed with no witnesses present?

I am the oldest grandchild of a village judge and I have no patriotism. What a horrible 250th it is all because of what I'm dealing with. The Founding Fathers did nothing for my Free Speech Rights and they accomplished nothing in the name of "innocent until proven guilty". I am more inspired by Justin Timberlake's DUI lawsuit than I am the US military disrupting Iran. I have A LOT of lawsuits I want to follow through on. Lawsuits engage the federal judicial branch of government and change laws. I Corinthians 6 means nothing to me since this happened to me.

I hope that all of my concerns are addressed in civil case # 26-cv-00181.
