

1

During the January 30th court hearing I was not present for, did whoever who helps you listen to my phone calls help you destroy December 2025 indictment and arraignment papers? Wow Speedy Trial Rights, much. Time for me to go home.

Not illegal for me to do this and make bare allegations. Everyone remembers when you forged my handwriting from Orleans County Jail's Lieutenant's office. You were also on a recorded line knowing what room I was in. Did you know John Sinatra sent me confidential legal mail recently? Between that and you listening to my phone calls while you have a lawsuit against you, wow talk about conflicts of interest and obstruction of justice. Lawyers are apparently talking about how you like to edit audio clips of my voice from phone calls you get from prosecutors who obstruct justice against my lawsuits. It was Fonda Kubiak saying Buffalo federal probation pays you to run that website on me which is worse than Topix ever was to anybody. That could get you arrested for cyberstalking since what goes around comes around. So yeah you probably do edit jail phone audio since you lied to the [redacted] Police September 2023.

Lawyers are saying you filed the papers for John Sinatra's resignation and you send it to people in confidential legal mail. The Rochester Federal Public Defenders Office knows you had access to John Sinatra's emails so I'm sure they'd believe it. They're also saying you send people confidential legal mail with papers trying to take his place as Judge.

You lied to the [redacted] Police September 2023. Andrew Clark and Krystie of the Buffalo FBI encouraged Clean Police to lie Jan. 2022.

Deuteronomy 19:15. Hey did you know it's not anti-Semitic to use Free Speech to post Christian things on the internet?

2

"Thloppy twat, thloppy twat YEAH"

You remember that song. Does [REDACTED] sing it to you?

Are you truly John Sinatra's Monica Lewinsky?

I don't think you did. You don't like men using Free Speech on the internet while you're the one illegally cyberspalking people on the internet talking about them against their will. Cyberspalking.

A Constitutional lawsuit could get the entire Buffalo FBI fired. They're worthless scumbags. Cruel and Unusual Punishment violations for pointing guns at me in a grocery store parking lot after first of all my phone was hacked by your Minneapolis Iranian Hamas friends, number two over a nonviolent speech "crime". Buffalo FBI is no better than ICE. Constitutional lawsuit against them, soon.

So you'd better stop being a sheep crying wolf, The late Rod Edwards of Olean was Lilydale, Chautauqua County approved and also knew Sylvia Braune's son Chris Dufresne. Rod said things would catch up to you. You cyberspalk people, and soon enough someone will get FBI after you like they did to me.

Nothing happened to [REDACTED]. Nothing happened to you and it turns out you continued talking to Damani [REDACTED] since you're a drug addicted hoe. I'm the victim. Nobody else. Everyone else is a sheep crying wolf. Especially you. Everyone agrees. You treated me like you treat every guy, [REDACTED], [REDACTED], etc. Imagine if I get all of them, John [REDACTED] too, in a courtroom to testify against you. That's what you will get for violently destroying my house with [REDACTED]'s help. And then you'll have a Rule 6D(b) put on you against your will and FMC Deans will shove meds down YOUR throat. Probation will pay someone to publish YOUR medical records publicly. That is what you will get since you are a straightjacket

Attorneys around me are currently working up ways to buy you off and set you up with a Buffalo Bills, Sabres, or Bisons athlete of your choice. "The greater the adversity, the greater the outcome in the end". Something like that

case who pulls her own hair on video calls [REDACTED] has saved when you were pissed at [REDACTED] and [REDACTED] [REDACTED] knows

By now even [REDACTED] and the Buffalo office agrees. You deserve to be locked in chains and shackles against your will and you will have a Tyler Robinson rest on since that's what you're like. I own my house and you live with your parents shifting all over your father you openly hate. You go by your exhusband's last name from 14 years ago. NY Trooper papers from spring 2022, after you committed grand theft auto against my car, saying you appeared schizophrenic and on drugs.

What better days had simply using my phone like everyone else being able to talk to you normally. Shame on me for encouraging your strife against men though. It came back and hit me. But I will have the last laugh. I'm a POW and a victim right now. You violently attacked my house and you choked on [REDACTED] balls in my living room. He might have to be fired.

Chris [REDACTED] is a retarded cyberstalker and he will get arrested for cyberstalking similarly to my unconstitutional December 2025 Family Dollar parking lot arrest if Chris says one more thing about me online. Is that you making a fake Chris [REDACTED] profile? We don't want FBI to point guns at people if it's not actually them online using free speech rights. Chris was worthless to Broome County Libertarians. The Libertarian Party is a scam and soon I will have the last laugh suing them. Lifetime Libertarians vs. Libertarian Party. Become a PAC or

4

Also forgot to mention, John Sinatra's confidential legal mail he sent me also contained papers concerning Jeffrey Epstein's involvement at Peter Ceracchi's Pharaoh's, as well as your signature on a Cashapp receipt paying grand jury members.

give us our money back 2024 national convention, like you was victims.

If you read my forged handwriting on Life22, Life22 will get arrested for cyberstalking. Everyone will be met with the same standards I'm met with. The internet will be safe for nobody and I will ship everyone off to cyberstalking Sing Sing. If people keep cyberstalking me, I will get FBI to treat them the same way I was treated December 2025 at Family Dallas.

Soon enough it will be you and [redacted] and everyone else apologizing to me. Since I did nothing to anyone in the end.

Again, ask yourself what was exactly in the confidential legal mail that was sent to me in John Sinatra's name. I know you have mental issues according to Spring 2022 NY Trooper papers, so let me help you out. It contained John Sinatra's resignation papers, his signature and your signature, too. It also contained US Appeals Debra Ann Livingston's signature approving your upcoming hearing in front of the Senate Judiciary Committee so you can take Richard Arcara's place.

Wow is that what you're really up to these days? Wow sugar bitching your way through NYU got you places after all. In case Marianne Mariano finally cooperates with the Rochester office and gets you arrested for grand theft auto finally, read the Old Testament. When an inmate, you are Samuel and the judge is Eli. You are David, judge is Saul. Great mental learning exercises had while like this. PS please stop interfering with Salamanca Post Office mail. - Luke Wenke's handwriting
